

Northern Hickory

Smooth Satin Finish

Chelsea Plank Flooring
Manufactured By Frame Hardwoods, Inc. In Chelsea, Michigan

Northern Hickory is from Northern Indiana, Michigan, Wisconsin, and Eastern Canada. Known for its extreme hardness, Hickory is typically harvested in the winter months to attain the best color. Traditionally relegated to utilitarian products such as axe handles and fire wood, Hickory is now commonly used in kitchen cabinets, fine furniture and flooring due to its beautiful grain characteristics. The color of natural Hickory ranges from snow white to deep amber.
